

BRAZILIAN SPIRITIST FEDERATION

Mediumship: Study and Practice

Program 2

Module II – Mechanisms of Mediumship

Organization of the Mediumship Meeting in the Spirit World

TOPIC 1

Spiritual dimensions of the mediumship meeting

Cleansing of the
physical environment

Assistance to
incarnate team of
workers

Installation of
spiritual and
magnetic protective
barriers

Assistance to needy spirits

Cleansing of the physical environment

* **ACTIVE CLEANSING**, a type of cleaning, which removes polluting waste from the location of the mediumship meeting.

* **IONIZATION** of the atmosphere of the mediumship meeting place combining resources to electric and magnetic effects.

Through ionization it is possible to withdraw from the atmosphere negative fluids and thought forms, eliminating or neutralizing the action of polluters, namely, "larvae" and microbes that directly affect the quality of care to the sick spirits.

Spiritual and Magnetic Protection

The workers of the spirit plane magnetically divide the meeting room, using long fluidic tracks designed to preserve and maintain the work in order to limit the area of influence of spirits not attuned to higher purposes.

Division 1

Magnetic barrier for insulation and protection of the components of the group and the entities admitted to communicate

Division 2

Surveillance barriers and control of entities located in the room, outside the division 1.

Division 3

Barrier located around the meeting building, protection against rowdy entities.

Spiritual and Magnetic Protection

- ✓ In the smallest details, ... the noble supervision of the benefactors.
- ✓ In all, order, service and simplicity.
- ✓ Magnetic barriers and protective devices are installed to prevent intrusive actions of spirits not in tune with the higher purposes.
- ✓ The positive and disciplined action of the thoughts of the spiritual benefactors, kept tuned in good and love of neighbor, provides powerful elements, which guarantee the work's harmony.
- ✓ The bright rays of the mind-oriented to goodness act upon the constructions of evil, like electric discharges.

Assistance to needy spirits

- ✓ Suffering spirits are only brought to mediumship meetings after preliminary aid led by rescuer spirits.
- ✓ They receive permanent care and attention and from the benefactors.
- ✓ In the mediumship meeting there is an ambient atmosphere, a definite center, to which converge all the group's thoughts (discarnates and incarnates)
- ✓ This center covers vast reservoir of very subtle plasma used by the architects of the spiritual life (mental-neural-psychic forces manipulated to revitalize suffering spirits)
- ✓ Spiritual architects manipulate mental matter necessary to the formation of educational frameworks.

Assistance to needy spirits

- ✓ Spirits (souls) sufferers are carriers of unbalances variable in number and grade.
- ✓ Slaughtered and embittered brothers and sisters who wish to renew themselves without knowing how to start.
- ✓ Not all suffering spirits, present at the mediumistic group, will communicate.
- ✓ The communicant spirits reveal the pain that they bring within - rage, violence, aggression, sorrow, fear, sadness, anguish, regret, addiction, etc.

Emmanuel asks: "... helps them with respect and affection as who bails friends lost."

Spiritual assistance to the mediumship team of the physical plane

- ✓ The workers of the spiritual plane do not neglect the protection to the incarnate members of the meeting.
- ✓ Never improvise, because all the work details are properly prepared beforehand, and when something happens that was not previously planned, there are providential alternatives that prevent unbalances in the group.
